CARBON MONOXIDE SAFETY TIPS

WARNING

Carbon monoxide is a colourless, odourless, poisonous gas, and exposure can be fatal. Your room is equipped with a carbon monoxide detector.

Symptoms of carbon monoxide exposure include:

- Headache
- Fatigue
- Weakness
- Nausea
- Shortness of breath
- Confusion
- Vomiting
- Blurred vision
- Dizziness
- Loss of muscle coordination
- Collapse
- Loss of consciousness[1]

What to do if a carbon monoxide alarm is sounding or if you experience any symptoms of carbon monoxide exposure:

- Never ignore a carbon monoxide alarm that is sounding.
- Immediately move outside to fresh air.
- Advise the hotel front desk.
- Call 911, emergency services, or the fire department.
- Do a head count to check that all people in your party are accounted for.
- Do not reenter the premises until the emergency services responders have given you permission.[2]
